

LAB #5: Project – ADO.NET

Due Date: **Mon Dec 12 2016 by 23:59.**

References: Read the course's text and notes. This material provides the necessary information you need to complete the exercises.

Instructions: Be sure to read the following general instructions carefully:

- This lab should be completed individually by all the students.
- You must demonstrate your solution in a class on Dec 13. Submit the code through eCentennial dropbox Lab 5. E-mail submission will NOT be accepted.
- **There will be no late submission got this project**

Part 1:

Modify your Lab 4 to achieve the following:

1. Fix all things that were requirements in Lab 1 to 4
2. Implement the authentication for the users so that their user name is used for submitted by field.
3. Add one additional feature of your choice to the existing solution.

Submission:

Please submit zipped (.zip) version of the folder containing your web site with all of its content.

Make sure that you:

- use proper naming conventions.
- use proper page layout and styling
- properly format the code
- include comment with your name and student number at the beginning, middle and the end of every page.
